SCHOOL REPORT.

In presenting to the citizens of Rumney my annual report of the schools, I will say that it has been our endeavor to do the best possible for our scholars. Trained and experienced teachers have been employed, and the schools started off at the beginning of the year with a good impetus and excellent prospects for a profitable year's work. Your teachers have earned a place in the first rank by faithful work in the schools in town and those who have a well established reputation have been employed whenever it has been possible to secure their services. Were there no murmurs of dissatisfaction, or breathings of adverse criticisms in reference to our schools and their management, we should feel that the millennium had indeed begun to develop itself in town. The primary school is the only one in town in which any serious trouble has occurred, and this was through no fault of the teachers.

We regret very much that the Quincey and Depot schools were again the victims of sickness and disease. Nearly all absences were caused by illness. The attendance in the other schools has been good. The work of the school is the *business* of the child, and every child should be impressed with the idea that *his* business can no more be neglected without detriment than the business of his parents. The responsibility for negligence of school duties rests not wholly upon the child but quite largely upon the parent who *ought* to know the general conduct of his child, and who, by inaction, tacitly assents to such conduct.

Strong teachers with heart-power succeed well in gaining and holding pupils in school. Every pupil should feel that by absence he suffers *personal* loss *irretrievable*. If poverty prevents attendance, kindly charity should be so administered as not to offend the personal dignity of the pupil. It was our intention to give each school a term of thirty weeks, but finding that the funds were not sufficient we were obliged to close four of them at the end of the twenty-ninth week. The other two having completed the thirty weeks.

We wish to thank the citizens of the town for their kindness in voting an extra sum for repairs. Your committee has tried to be faithful, prudent and economical in the use of this fund but it was not sufficient to do all the repairs that were actually needed on the school buildings. We regret that we were unable to complete the work on the Quincy school house. We found that the front of the building was in a bad condition and were advised to wait another year. An extra appropriation is required to place that part of the house on a firmer foundation and to repair or rebuild that part of the house. Do not for one moment think I am bereft of my senses, or that I think the citizens of Rumney are millionaires when I make this statement; that for the honor of Rumney, for the best interest of the village people, for the health of your children and teachers, the village school house should be removed from its present location to a higher one, or off the damp, unhealthy land where it now is, away from the street, where the children can enjoy their school games without troubling those who live near the school yard. I know it will take money, but think it over, look down deep in your pockets and see if

there be not a few dollars that you can spare just as well as not; and you who are burdened with larger money, can you not find a fifty or an hundred dollar bill to help along so good a cause? "Cast thy bread upon the waters," etc. Think it over and act for the best interest of your children and the town.

Thanking you for the hearty support and kindness which you have ever shown me I respectfully submit this my annual report of your schools.
